#### NATIONAL SOCIETY OF MOF

Founded in 1929, the Société Nationale des Meilleurs Ouvriers de France (SnMOF) is an Association under the 1901 Law recognized as being of Public Utility since 1952. Its Creation came just after the Second National Labor Exhibition, at the Initiative of René Petit (MOF 1927 Cabinetmaker) who feared that once the Title had been obtained, the Winners would fall back into Anonymity without even having had the Opportunity to get to know the other Meilleurs Ouvriers de France better or to promote their Diploma to the General Public. After launching an Appeal to the Press to bring together all the Holders of the Title, the National Society of Best Workers of France was born.

Since then, the National Society of the Best Workers of France has continued to grow and develop in order to go beyond the Friendly and to pursue a Proactive Policy. With more than 1,500 Members, the SnMOF is the Association of Winners of the Title. It carries and conveys the Values ??of Excellence, Innovation and Precision while promoting the 200 Professions represented in the Competition, whether they come from Crafts, the Arts and Crafts Industry or Professional Trades - both in France and Internationally. Imbued with a Strong Duty of Transmission and concerned with preserving the Know-How that it brings together, it created the One of the Best Apprentices in France Competition, reserved for Young People in Professional Training aged 16 to 21. Currently, this Competition represents more than 120 Professions.

The Meilleurs Ouvriers de France are keen to support New Generations because they constitute a Potential Reservoir of future MOFs. It is through this Intergenerational Solidarity that the MOFs, Voluntarily invested in the Organization of this Competition, ensure the Transmission of Exceptional Know-How and the Promotion of Manual Work by offering Young People a Path to Professional Progression as well as rewarding Perspectives and Economically Viable.
